ONE SHIELDS AVENUE
DAVIS, CALIFORNIA 95616

Date: June 27, 2018

To: Fleet Services Customers

From: Dan McCann, Director Fleet Services

Campus insurance costs for General, Auto, and Employee Practices Liability (GAEL) are reviewed and updated annually by the Office of Administrative and Resource Management. The 2018-19 auto liability and property damage premiums for University-owned automobiles are shown below. These rates are effective July 1, 2018 and will appear on the Fleet Services billing processed on August 1, 2018. The liability portion of the pass-through rates will increase approximately 6% and the property damage portion will increase approximately 8%. Combined the rates will increase a net 7%. These rates are a pass-through cost from the UC self-insurance fund and reflect the Davis campus automobile claim experience, incurred losses and system-wide program trends.

Fleet Services continues to be involved in activities which help mitigate the number of accidents and resultant cost of automobile insurance. The campus Safe Driver Awareness Course is available **online** through Staff Development at <http://lms.ucdavis.edu> (UCD Login required). Once logged on, search for "Safe Driver" for several course selections.

Safe Driver Awareness is a course sponsored by Fleet Services, is open to staff, faculty and students who drive on university business. It meets the current requirements from Cal/OSHA for Injury Illness Prevention Program and is excellent refresher for driving personal vehicles as well. The course is recommended for all new campus drivers and a refresher anytime.

For questions related to auto insurance rates, contact Elma Olguin @ (530)752-7167.
