

Household Hazardous Waste (HHW)

Household Hazardous Waste (HHW) may not be included in ordinary trash for landfill disposal. Anyone who generates HHW has “cradle to grave responsibility” and must routinely arrange for proper pickup and disposal.

UC Davis campus is not eligible to take HHW to the Yolo County Central Landfill and contracts with a third party for routine material pickup.

Public/Private Partnerships (P3)

Locations under contract with Recology

Dispose of HHW per the terms of your agreement. If the agreement precludes HHW disposal, you must arrange for separate routine material pickup.

Solid waste services provided by UC Davis

The following P3s must arrange for separate routine HHW pickup and are also responsible for educating their residents on HHW items and where and how to dispose of them properly at each location.

- 8th & Wake
- Domes at Baggins End
- Hyatt Hotel
- Primero Grove
- The Colleges at La Rue
- Tri-Cooperatives
- Sol at West Village
- The Green at West Village

Contact Information & Instructions

Various hazardous waste vendors provide HHW management. The list below includes some example local vendors that have provided this type of service to similar institutions in the past with their contact information.
