

# TRIRIGA UPDATES

## UPCOMING BROWSER COMPATIBILITY UPDATE

Please note that upcoming changes will soon require you to access TRIRIGA through Firefox or Google Chrome browsers only.

We strongly encourage you to switch to these browsers as soon as you can. Although this won't be required immediately, it will be a requirement in the near future.

If you need assistance with installing Firefox or Google Chrome, please send a message to IT at AdminITHelp@ucdavis.edu.

## VISUAL CHANGES & NEW FUNCTIONALITIES IN TRIRIGA

Let's go through those changes! If you have questions, you can reach us at facilities@ucdavis.edu, or at 530-752-1655.

- The width of the data screen has been expanded. You will now be able to see more columns of your data at once.
  - NOTE: The look of the visual changes will depend on the assigned properties and functions in TRIRIGA, and your screen size.

## NEW FUNCTIONALITY

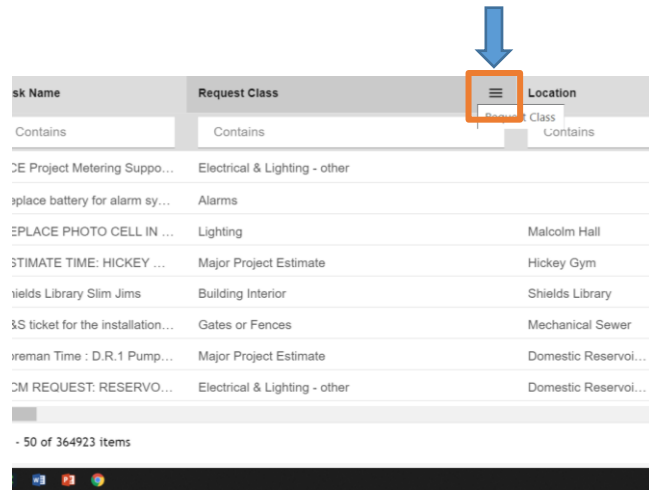

We are excited to give you more control over your report function! Please be aware that changes that you make with the new report Name functions, will be refreshed to the original layout upon log-in.

- You can now freely move your columns to help you sort data easier.
  - Click and drag most headers (see Graphic 1a below to see how header "Request Class" can be moved by dragging it.)

Task ID	Task Name	Request Class	Location	Zone	Floor
1139162	ACE Project Metering App...	Electrical & Lighting - other		1000001	
1345442	Replace battery for alarm sy...	Alarm		1000001

1979280	DCM REQUEST RESERVO...	Electrical & Lighting - other	Domestic Reservoi...	1001897	

Graphic 1a

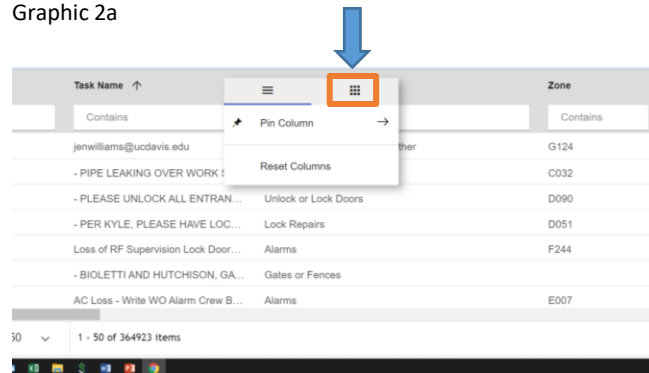

- At this time, not all headers have this ability. However, the most-used headers have this ability.
- Each column has a hamburger icon (Graphic 2a below), you can click on this to do a few things:
  - Pin the column to the right or left of the data you are reviewing. By pinning a column, it locks that column in place and all other columns are now scrollable.
  - You can reset back to the default view.
  - You are able to hide/show any data columns from your view easily by checking on (or off) the list of columns given (Graphic 2 b and 2c below).

A screenshot of a table header. The columns are 'Request Name', 'Request Class', and 'Location'. A blue arrow points to a hamburger icon (three horizontal lines) in the 'Request Class' header, which is also enclosed in an orange box. Below the header, the table contains several rows of data. At the bottom, it says '- 50 of 364923 items'.

Request Name	Request Class	Location
Contains	Contains	Contains
DE Project Metering Suppo...	Electrical & Lighting - other	
replace battery for alarm sy...	Alarms	
EPLACE PHOTO CELL IN ...	Lighting	Malcolm Hall
ESTIMATE TIME: HICKEY ...	Major Project Estimate	Hickey Gym
ields Library Slim Jims	Building Interior	Shields Library
AS ticket for the installation...	Gates or Fences	Mechanical Sewer
reman Time : D.R.1 Pump...	Major Project Estimate	Domestic Reservoir...
DM REQUEST: RESERVO...	Electrical & Lighting - other	Domestic Reservoir...

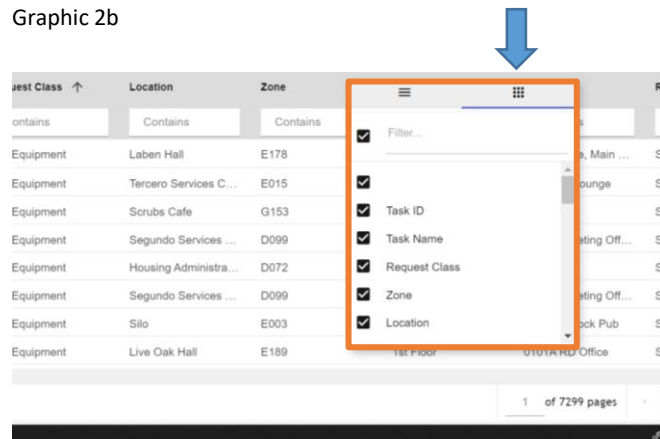

Graphic 2a

A screenshot of a table header. The columns are 'Task Name', 'Request Class', and 'Zone'. A blue arrow points to a hamburger icon in the 'Request Class' header, which is enclosed in an orange box. A context menu is open over this icon, showing options: 'Pin Column' (with a right-pointing arrow), 'Reset Columns', and 'Filter...'. Below the header, the table contains several rows of data. At the bottom, it says '30' and '1 - 50 of 364923 items'.

Task Name	Request Class	Zone
Contains	Contains	Contains
jenwilliams@ucdavis.edu		G124
- PIPE LEAKING OVER WORK		C032

## UPDATED FEATURES

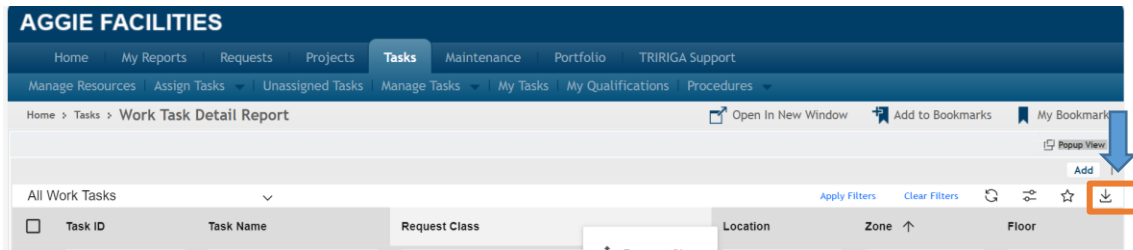

- The search function now stays at the top of the Task page.
- The other search function is now on the upper right hand corner of the page and looks like this:

- You can Star your favorite tasks for future use.

- The export function icon is now on the right hand side.

- Apply Filters is now in the upper right hand side
